

# Frontier and Future Development of Information Technology in Medicine and Education: ITME 2013 (Lecture Notes in Electrical Engineering)

IT changes everyday life, especially in education and medicine. The goal of ITME 2013 is to further explore the theoretical and practical issues of IT in education and medicine. It also aims to foster new ideas and collaboration between researchers and practitioners.

**Research on Application of Artificial Immune System in 3G Mobile** Chapter. Frontier and Future Development of Information Technology in Medicine and Education. Volume 269 of the series Lecture Notes in Electrical Engineering pp 819-827. Date: 06 December 2013 and we can expand to more rounds on LED-128. At the present time, it is an efficient attack on six-rounds of LED-64. **The Analysis of the Chronic Patients Demand of the Hospital Health** Chapter. Frontier and Future Development of Information Technology in Medicine and Education. Volume 269 of the series Lecture Notes in Electrical Engineering pp 2637-2641. Date: 06 December 2013 We present an encouraging system that works in real time to monitor the heart rate data. The location of mobile **Hierarchical Clustering by a P System with Chained Rules - Springer** Frontier and Future Development of Information Technology in Medicine and Education. Volume 269 of the series Lecture Notes in Electrical Engineering pp 3313-3317. Date: 06 December 2013 a virtual mentorship program, the ONC provided real time opportunities for knowledge transfer and support for career mobility. **Research on the Informatization Top-level Design Methods - Springer** Frontier and Future Development of Information Technology in Medicine and Education. Volume 269 of the series Lecture Notes in Electrical Engineering pp 2941-2945. Date: 06 December 2013 At the same time a very serious question on how to extract significant knowledge from available datasets remains quite open. **Enterprise Development with P Systems - Springer** ITME 2013 Shaozi Li, Qun Jin, Xiaohong Jiang, James J. (Jong Hyuk) Park newly deployed outpatient Electronic Medical Record (EMR) system over time in a in Medicine and Education, Lecture Notes in Electrical Engineering 269, DOI: **Research on the Construction of Regional Medical Information** Frontier and Future Development of Information Technology in Medicine and Education. Volume 269 of the series Lecture Notes in Electrical Engineering pp 2189-2193. Date: 06 December 2013 new method can avoid weak point existing in the traditional methods, at the same time, can extract the examining data efficiently. **Comparison of Two Radio Systems for Health Remote**

**Monitoring** Frontier and Future Development of Information Technology in Medicine Volume 269 of the series Lecture Notes in Electrical Engineering pp 1413-1417. Date: 06 December 2013 articles on the electronic whiteboard from time distribution, contents of the field, Electronic whiteboard Educational applications Research. **Wireless Heart Rate Monitoring System of RSS-based Positioning in** Chapter. Frontier and Future Development of Information Technology in Medicine and Education. Volume 269 of the series Lecture Notes in Electrical Engineering pp 1337-1342. Date: 06 December 2013 This paper is research findings of TJAU education reform project (NO.B-10-11). Page %P. Loading Close Plain text. **Research on the Mobile Learning Resources Based on Cellphone** Frontier and Future Development of Information Technology in Medicine and Volume 269 of the series Lecture Notes in Electrical Engineering pp 3261-3268. Date: 06 December 2013 tele-diagnose, tele-education, tele-care and tele-medical car, etc. telemedicine has the advantages of time and space, and effectively **The Application of Telemedicine Technology - Springer** Frontier and Future Development of Information Technology in Medicine Volume 269 of the series Lecture Notes in Electrical Engineering pp 669-677. Date: 06 December 2013 With the development of medical health, regional health information degree of system integration, low real-time of information exchange, **Extract Examining Data Using Medical Field Association Knowledge Research and Practice of University Statistics Sharing Scheme** Frontier and Future Development of Information Technology in Medicine and Education. Volume 269 of the series Lecture Notes in Electrical Engineering pp 931-939. Date: 06 December 2013 the transmission of real-time operation command is replaced by modified underlying database, which improves the transmission Chapter. Frontier and Future Development of Information Technology in Medicine and Education. Volume 269 of the series Lecture Notes in Electrical Engineering pp 353-363. Date: 06 December 2013 At the same time, the phenomenon that a large number of students cant graduate on time arises. But now there are no **A New Practice Mode and Platform Based on Network Cooperation** Frontier and Future Development of Information Technology in Medicine and Education. Volume 269 of the series Lecture Notes in Electrical Engineering pp 1639-1644. Date: 06 December 2013 between the user and the cloud at the same time, this paper uses a challenge-response mechanism. Then a user uses this **Improve Effectiveness and Quality of Course Practices by Opening** Chapter. Frontier and Future Development of Information Technology in Medicine and Education. Volume 269 of the series Lecture Notes in Electrical Engineering pp 1383-1388. Date: 06 December 2013 At the same time it also highlights the irreplaceable role of enterprise DNA in the inheritance of the enterprise entity. **Frontier and Future Development of Information Technology in** Frontier and Future Development of Information Technology in Medicine and Education. Volume 269 of the series Lecture Notes in Electrical Engineering pp 3125-3131. Date: 06 December 2013 Real time health remote monitoring systems require the use of radio networks to transmit data from patients to a health center **Application of Internet in Pharmacological Teaching - Springer** Frontier and Future Development of Information Technology in Medicine and Education. Volume 269 of the series Lecture Notes in Electrical Engineering pp 1829-1832. Date: 06 December 2013 services to patients and make harmonious relationship of each other is an issue that we have been studying for a long time. **The Application of the Morris Water Maze System to the Effect of** Dec 6, 2013 Abstract. This article describes the development trend of informatization top-level design, introduces a business process combing method **Visual Analysis on Management of Postgraduate Degrees - Springer** Frontier and Future Development of Information Technology in Medicine and Education. Volume 269 of the series Lecture Notes in Electrical Engineering pp 2693-2697. Date: 06 December 2013 of statistical data is limited to verbal or one-time providing and lack the supporting of effective information technology, which is **Eliciting the Most Desirable Information with Residuated Lattices** Frontier and Future Development of Information Technology in Medicine and Education. Volume 269 of the series Lecture Notes in Electrical Engineering pp 3181-3189. Date: 06 December 2013 total path length and of the times to cross the platform in the scopolamine-treated mouse, while the high-dose administration of **Analysis of Electromagnetic Radiation Effect on Layered Human** Lecture Notes in Electrical Engineering. Free Preview Frontier and Future Development of Information Technology in Medicine and Education. ITME 2013. **The Management and Application of a Radio Frequency** Frontier and Future Development of Information Technology in Volume 269 of the series Lecture Notes in Electrical Engineering pp 393-402. Date: 06 December 2013 of relevant information to support and remind medical professionals may information (basic patient data, department, surgical procedure, time of **Analysis of the Research and Trend for Electronic Whiteboard** Frontier and Future Development of Information Technology in Medicine and Education. Volume 269 of the series Lecture Notes in Electrical Engineering pp 233-242. Date: 06 December 2013 new model of P system can reduce the time complexity of clustering process comparing with the classical clustering algorithm. **Design and Implementation of the Regional Health Information** Frontier and Future Development of

Information Technology in Medicine and Education. Volume 269 of the series Lecture Notes in Electrical Engineering pp 3089-3094. Date: 06 December 2013 of 3G mobile network and detects network attack and real-time risk of mobile communication network with a good monitoring **Developing a Pilot Online Learning and Mentorship Website for** Frontier and Future Development of Information Technology in Volume 269 of the series Lecture Notes in Electrical Engineering pp 2413-2417. Date: 06 December 2013 become a new method for education, a new model, a trend of medical teaching, be passed for the education to face the mass and the modern time. **Design of Remote Medical Monitoring System - Springer** Frontier and Future Development of Information Technology in Medicine Volume 269 of the series Lecture Notes in Electrical Engineering pp 1437-1441. Date: 06 December 2013 education course practices based on novel strategy and information education should be opened, reused and shared across time, space **Improved Single-Key Attack on Reduced-Round LED - Springer** Chapter. Frontier and Future Development of Information Technology in Medicine and Education. Volume 269 of the series Lecture Notes in Electrical Engineering pp 3301-3305. Date: 06 December 2013 As medical images are mostly fuzzy, Mean Shift cluster algorithm is used to smooth the CT images. Then some seed **Research on Distributed Synchronous CAD Collaborative Design** Frontier and Future Development of Information Technology in Medicine and Education. Volume 269 of the series Lecture Notes in Electrical Engineering pp 3221-3225. Date: 06 December 2013 on Android platform, which can realize real-time processing of data, display it to user and give a certain degree of warning. **Integrity Verification of Cloud Data - Springer** Frontier and Future Development of Information Technology in Medicine and Education. Volume 269 of the series Lecture Notes in Electrical Engineering pp 1971-1977. Date: 06 December 2013 the simulation results are below the safe standard when human head exposure to electromagnetic radiation in a short time. **Lung Segmentation for CT Images Based on Mean Shift and Region** Frontier and Future Development of Information Technology in Volume 269 of the series Lecture Notes in Electrical Engineering pp 1521-1525. Date: 06 December 2013 Learning at any time, any place and in any way has become a trend. Learning resources is one of the two research areas of education technology.
