

Free Mind Free Speech

This book is a carefully documented combination of my free transcendental thoughts, including many of my life experiences recalled and written precisely as creative stories. Some of them have been researched for affirmation, and there are some photos. Some of the stories may also be a bit unusual but true and somewhat ineffable. If anything written in this book, Free Mind Free Speech, seems to be offensive to anyone in any manner, I wish to apologize before you complete reading and cogitating about what you have read, and in the process, I hope that you find something in this book that is more than just words, but informative, enlightening, uplifting, or encouraging to your mind and your spirit. It is all taken from true experiences.
