

## A Symphony of Life

Redjali traces her transition from being part of Iran's elite to her struggles in the US encompassing Iran's recent social historical movement, the women's rights, mental health, and personal issues such as surviving cancer. She illustrates the personal approach she has adopted throughout her life in coping with and overcoming adversities through the power of education. Her journey is a testament to a woman's ability to balance all facets of her life: family, career, emotional turmoil, and quest to help others.
