

## Guvors Great Discovery (Guvors Great Discoveries)

Guvor is tired of things always being the same. There seems no end to the monotony until... he opens his eyes and ears and discovers the world is indeed a fascinating place if one really looks around! Can he get his family and neighbors to see and understand what they're missing? The book focuses on the importance of learning how to overcome the purposelessness many people fall into with routine and challenges young readers to aspire to influence the world around them with imagination and observation.
