

Little Boy Blue is another nursery rhyme with a twist. Based on the original nursery rhyme, little boy blue is responsible of looking after the sheep and cow; however, instead of watching over the animals, he is fast asleep under a haystack. Students will construct their own little, and big book of the story. The pages can be cut in one of two ways: on yellow Bristol board, or any colour Bristol board. Colour the provided illustrations and cut out the text. Students have the option of assembling the big book using a normal template, or using the provided haystack template. This Nursery Rhymes lesson provides a teacher and student section with reading passages, activities, little book and big book construction to create a well-rounded lesson plan.
