

Hannas War: Her Life - Her Cancer

Hanna's life began beneath the wings of war in the south of Germany in 1944. It ended sixty years later - her final breath being drawn within the hushed calm and ornate splendor of a place called the Haven of Our Lady of Peace. Her story is a love story to be sure. It is also a graphic portrayal of Hanna's ten-year struggle with metastasized breast cancer. That struggle - her war - is described by the author, her husband, as a decade of exhilarating highs and gut-wrenching lows. In *Hanna's War* he captures both with graphic detail and moving narrative.
